The McHenry Avenue corridor provides a direct link between the cities of Modesto and Escalon, connects State Routes 108 and 120, and crosses the Stanislaus River and South San Joaquin Irrigation District (SSJID) Canal. To relieve existing and future traffic congestion, San Joaquin County is beginning construction on the McHenry Avenue Corridor Improvements Project.

**Project Features**
- Widen 1.1 miles of McHenry Avenue from 1,487 feet south of River Road to 190 feet south of Jones Road
- Replace McHenry Avenue Bridges over the Stanislaus River and South San Joaquin Irrigation District (SSJID) Canal with wider and safer bridges
- Add a signal at the intersection of McHenry Avenue and River Road
- Install a center two-way left turn lane on McHenry Avenue

**Schedule**
Construction begins in late April 2017 and is expected to be completed in mid-2020.

**Traffic Delays**
Community members should expect traffic delays throughout construction. Delay times will vary depending on the construction activity of each day.

**Project Benefits**
- Enhance safety
- Meet current bridge seismic design standards
- Relieve existing and future traffic congestion
- Improve access and circulation
- Improve air quality

Frequently Asked Questions

**Where will construction take place?**

![Map of construction area](image)

**Will McHenry Avenue close at any point during construction?**

No. At least one lane of McHenry Avenue will remain open with traffic control during construction.

**Can I expect traffic delays during construction?**

Yes. Community members can expect delays on McHenry Avenue corridor during peak traffic periods. Visit the Traffic Information page on the project website for the most recent traffic updates and sign up to receive project alerts via text.

**Will businesses near the project area remain open during construction?**

Yes. All of the businesses near the project area will remain open and accessible during construction.

**How can I stay updated about the project and construction activities that may impact me?**

There are multiple ways for community members to stay updated throughout the project. You can call or e-mail any questions you may have to the project hotline or e-mail address. You can also sign up for e-mail updates and text message alerts.
